Dear Hal,

That F.B.I. Lab report shows how far ahead of your time you were. But three decades ago how many would believe The F.B.I. would handle evidence like this!

Did Edgar Zimbalist Jr. do this on T.V.? Gary Hart is telling journalists like Roger Morris "that The Mob" and CIA "set him up" because of his J.F.K. Senate Probe. He and William Colby did write a pot boiler on the case, "The Double Man".

How people can aggrandize themselves! Groden got nailed on O.J. and Wecht

book read unsolicited on the absurd "alien autopsy"!!

Hope this letter finds you well.

Sincerely,
E.O. Williams
